

L8C SERIES

WiFi MESH Never Offline intelligent Smart Touch Switch

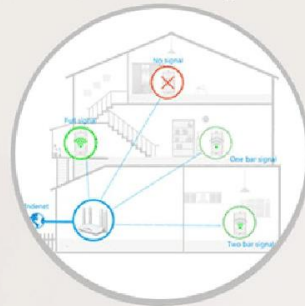

Support Touch/voice/ App/ Alexa and Google home

Are you still using WiFi switch, suffering from the trouble of no signal connection or frequent disconnection? Are you still using ZigBee switch and must use the backward technology of hub? Please use the Lanbon WiFi mesh switch to solve your troubles immediately:

WIFI SWITCH

An ordinary WiFi switch is highly dependent on the router and cannot be connected where there is no WiFi signal

WIFI

SAME TIME OFFLINE

WIFI MESH

WiFi mesh switch: the switches can forward WiFi signals to each other, and the signals can easily cover all kinds of big houses.

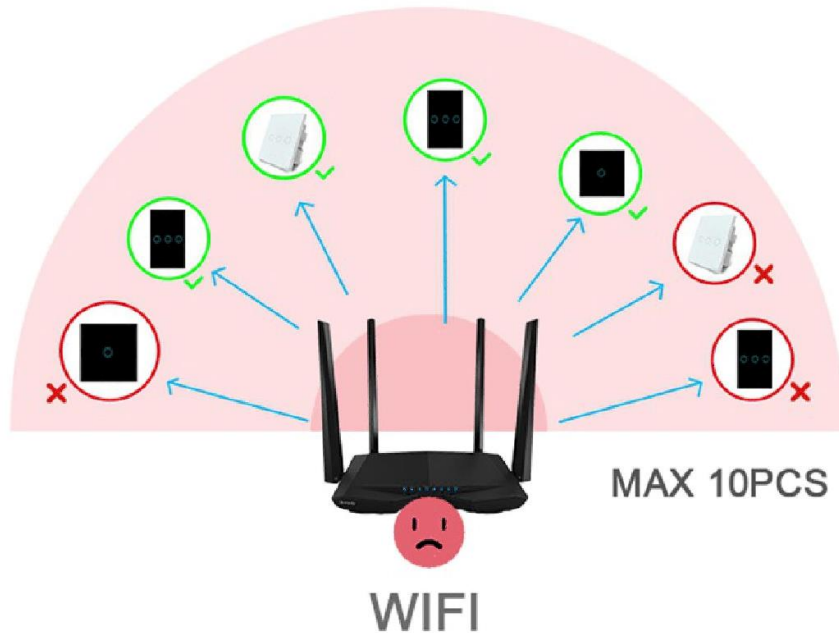

WIFI MESH

NEVER OFFLINE

WIFI SWITCH

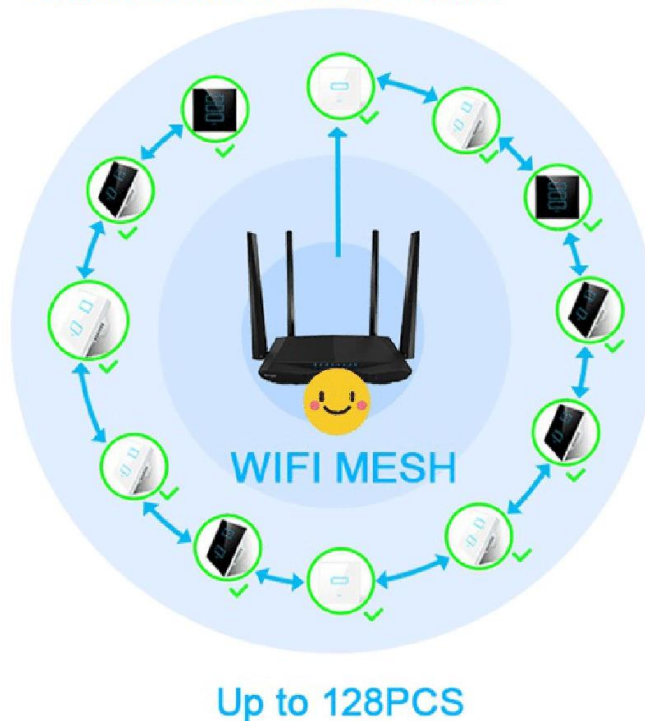

For ordinary WiFi switches, the router can have up to 10. If it exceeds, it will often drop the line

VS

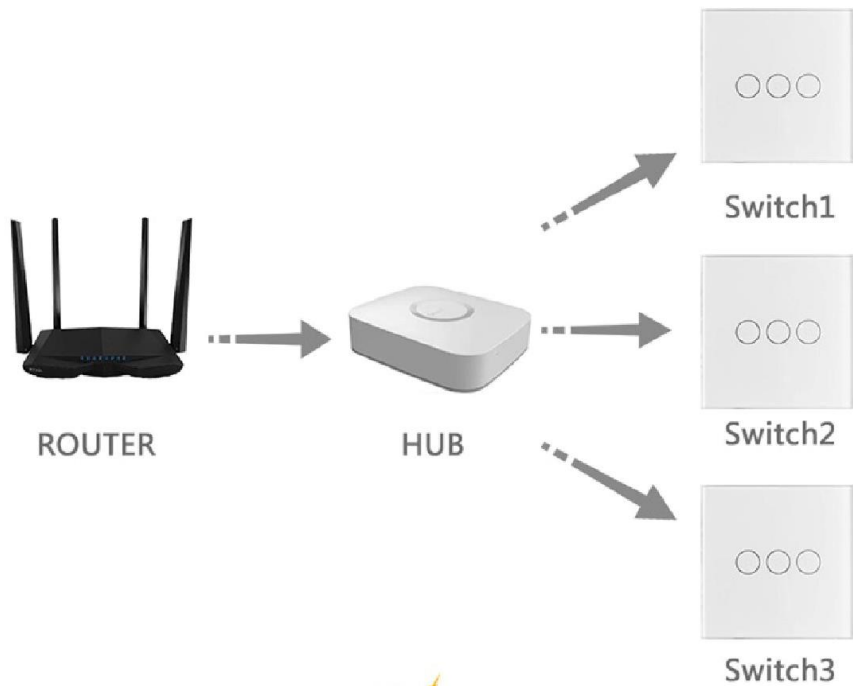

WIFI MESH

WiFi mesh switch: only one switch is connected to the router, which does not occupy the router's secondary resources and will never offline

ZIGBEE

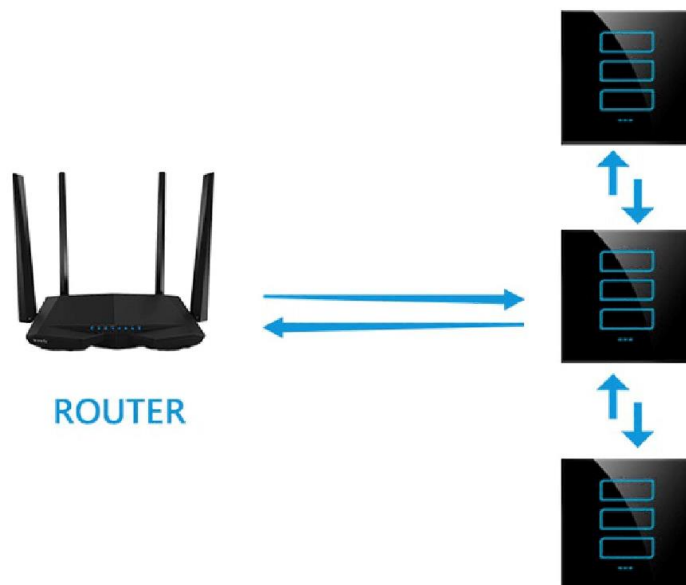

ZigBee switch must have a hub. Without a hub, it cannot be connected to WiFi

VS

WIFI MESH

WiFi mesh switch: no hub is required. One or both can be directly connected to WiFi

Multiple functions

Remote control

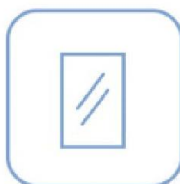

Voice control

Timing function

Touch the key

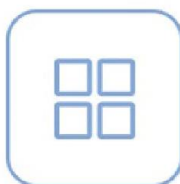

Glass panel

Quick installation

Electricity statistics

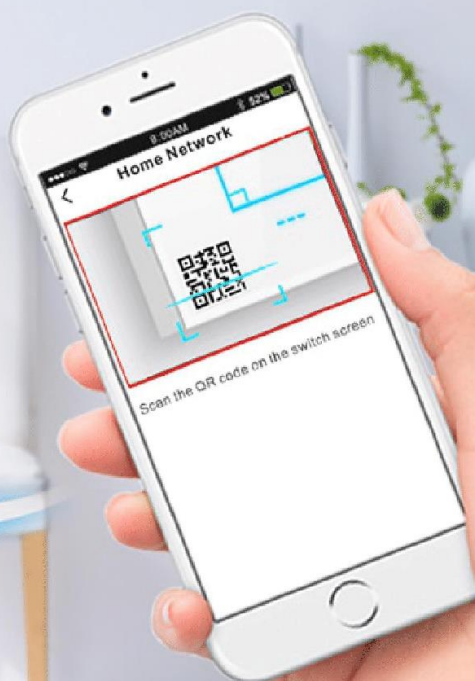

Scene function

WIFI- Mesh technology

Super simple code scanning to configure WiFi

Just scan the QR code with your mobile phone to complete the configuration from switch to router

Tempered glass panel

Toughening method is adopted to strengthen the glass,
and the hardness is further strengthened to achieve
complete scratch and fire prevention

Separable glass panel

Capacitive touch button

sensitive touch

3 Gang Light Switch

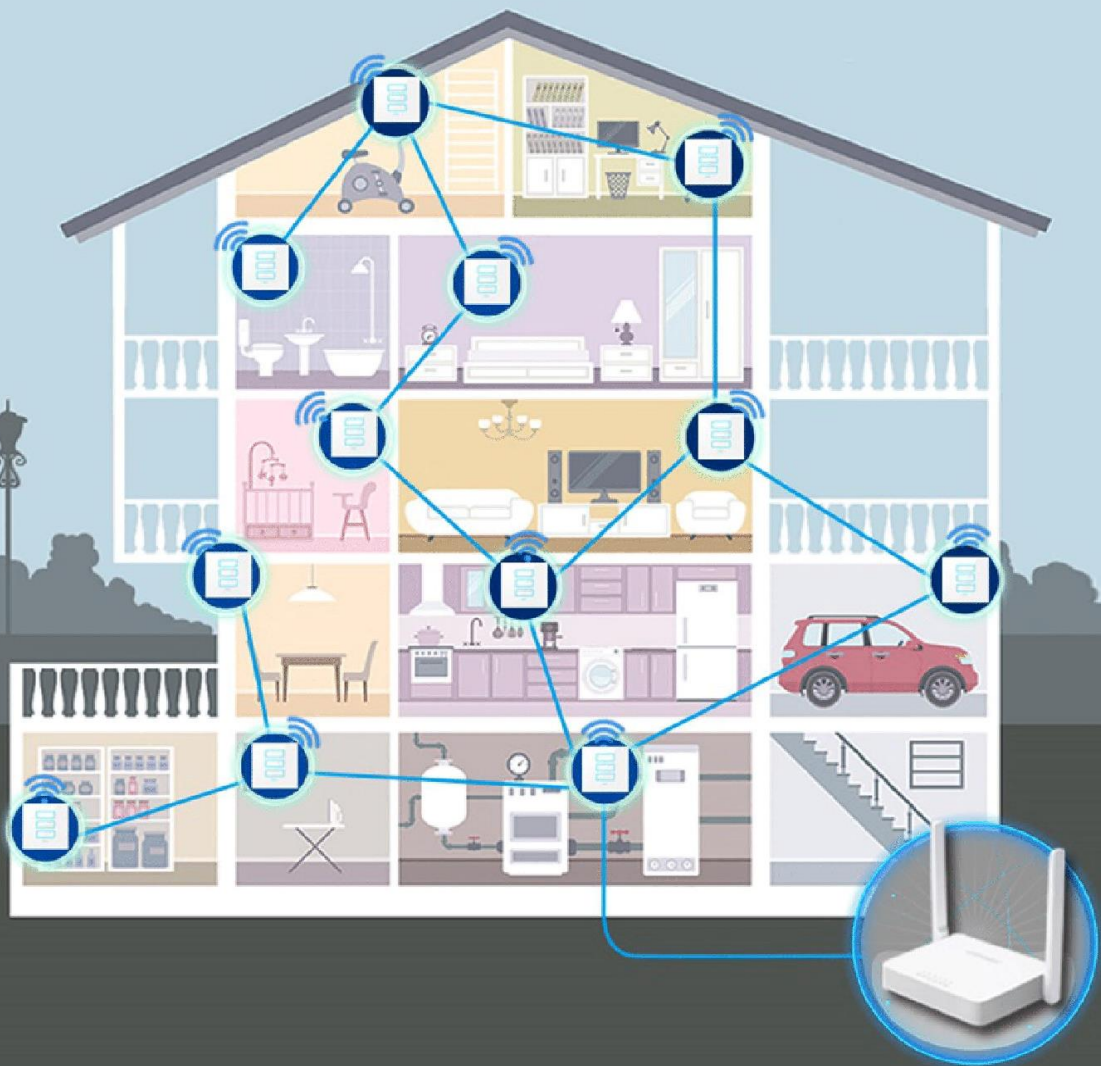

**Stable and reliable,
never offline**

WIFI-MESH Network

Using brand new WIFI MESH networking technology, each switch can automatically network with each other, which is stable and reliable and never offline. The performance requirements of the router are zero, and the WiFi coverage requirements of the house are zero. You will say goodbye to traditional wifi switch

Voice control

Support Alexa and Google home

"OK"

"Alexa, turn on the lights in the room"

"Alexa, adjust the brightness to 50%"

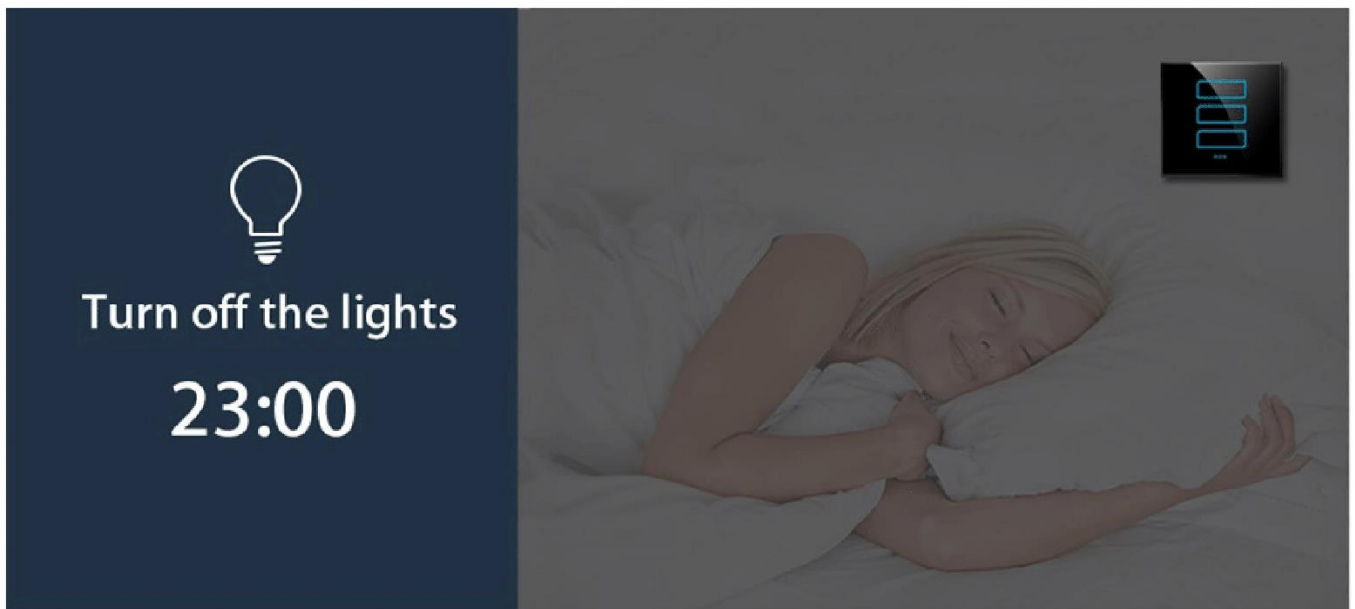

Match any backlight color

You can control the light remotely through Smart Living APP, and can set a variety of backlight, enjoy different lighting atmosphere in different life scenes

Timing function

In the morning, the light automatically turns on to wake up a beautiful day; At night, automatically turn off the light to remind you to go to bed early.

SIZE

PRODUCT PARAMETERS

SIZE:	85×85×32MM
ITEM NO:	L8C-HS1/2/3
WEIGHT:	0.3KG
PACKING BOX SIZE:	141×103×47MM
PANEL:	TEMPERED CRYSTAL GLASS
BOTTOM MATERIALS:	RETARDANT PC
RATED VOLTAGE:	AC 100-250V 50/60HZ
RATED LOAD:	200W/GANG
LOAD TYPE:	INCANDESCENT LAMP, ENERGY SAVING LAMP, FLUORESCENT
WIRELESS STANDARDS:	IEEE 802.15.4
FREQUENCY RANGE:	2.405GHZ~2.480GHZ
RECEIVING SENSITIVITY:	-97DBM@250KBPS
OPERATING TEMPERATURE:	-25 DEGREE TO +60 DEGREE
RELATIVE HUMIDITY:	<95%
